You may have heard of Google Adsense, if you haven't, Google adsense is a program by Google Inc. to pay publishers for displaying ads on their web pages. This program has enriched so many people (and is still enriching). Note: Your website must look good for Google to accept it for this program; else the application will be declined.

For the purpose of this book, if you don't have a website use <http://www.hubpages.com> as your URL. Hubpages is a third party ads revenue sharing website. We will talk more about Hubpages later in this material.

After a successful registration, it will take up to 24-48 hours to set up your account, so don't waste this time waiting for your account to be approved before you start making money with it.

HUBPAGES:

I want to introduce you to a service called [Ads share revenue program](#). This type of program divides the ads revenue earned from their website with you the member. A website called Hubpages offers this type of service.

Now let's get you acquainted with this great program that has provided a divide between website owners and you who don't have idea of website development from making money from Google adsense.

Hubpages is a great website we found sometime ago that has proved to be the best over the years in ads sharing revenue program. I love this website a lot but unfortunately many Nigerians don't know about them.

So the first thing is to open a Hubpage account and register with them. Their website is www.hubpages.com. Registration is free. Once you open this account, you can instantly start earning from this program.

HOW TO START EARNING INSTANTLY FROM HUBPAGES.

To instantly start earning from Hubpages, go to create a new hub, create a hub, hubs are like articles. In other words post an article, if you are not good writing articles, search for articles written by other people on the internet, modify it and post it to hubpages.

Your articles will have to be well articulated, so as to rank high when you post it. Include images, videos if possible in your hubs so as to make it look good. You can read the help/FAQ on hubpages to discover how you can make a good hub.

After posting your hubs, copy the URL and go to Google, search for submit URL and submit your urls to search engines and now, you have started making money from the internet.

With this program you can earn even more than a website owner. If a website has 50 pages, the ads it could generate can not be compared to you when you have made 300-1000 hub postings. If you have 200 hubs publication, you are like a website owner with a 200 paged website.

So the more hubs you have the more ads revenue you generate, now take it like a task to publish 5 hubs everyday, in a month you must have published 150 hubs (150 paged website). What a great way to start making money form the internet.

HOW TO MAXIMIZE YOUR EARNINGS FROM GOOGLE ADSENSE.

Hubpages is really a great website dedicated to seeing your success in internet business.

To maximize your earnings from Google adsense, you will need to promote your hub to wider readers so as to be able to earn more. But, all were taken into consideration when this great website was designed.

Now we will advise you to make good use of these tools to promote your hubs. You will need to register with websites like facebook, Digg, Delicious etc (the rest are on Hubpages).

So after publications, use these tools to promote your hubs, for example if you are using facebook, you will see a facebook link under your hubs after publications, click on it, fill in your facebook username and password and submit, this hub will be published in your facebook profile, so if you have so many friends in your facebook account, they will be notified that you have published a new hub and the content of the hub will be displayed in their accounts, do the maths now!

You can also use your email address book, if you added people to your email address book; you can also mail each of your hubs to them.

I hope you find this information useful.
